WE ARE YOUR PARTNER EXPERTS

Due to the years of experience of our owners and core team, PSS can be your go-to partner for all your Brewery process and utility system needs. Our team has decades of stainless-steel fabrication and Brewhouse vessel experience both domestically and internationally. We work with breweries to modernize, retrofit, upgrade, and expand your existing plant systems, ensuring minimal disruption and downtime, while always completing our project on time.

OUR SUCCESS SKILLED CRAFTSMAN

Our years of experience enable us to partner with our clients to design and build complete solutions unique to their needs. Our solutions implement industry specific best practices while providing our clients a competitive advantage in speed and efficiency in today's challenging environment.
